Agriculture and horticulture in ancient Egypt Agriculture Greetings, oh Nile, who springs from the earth and gives Egypt nourishment. Irrigation In botany, a tree is a perennial plant with an elongated stem, or trunk, supporting branches and leaves in most species. In some usages, the definition of a tree may be narrower, including only woody plants with secondary growth, plants that are usable as lumber or plants above a specified height. Trees are not a taxonomic group but include a variety of plant species that have independently ...
